Progress is made one donation at a time

As we continue to work towards our mission of eradicating cancer, the Canadian Cancer Society benefits from the generosity of companies across the country. As some of Canada's best corporate citizens, these companies take a leadership role in the fight against cancer, demonstrating to their employees, customers and community that they care.

Cancer is truly everyone's business and the Canadian Cancer Society offers companies the opportunity to make a difference. By supporting the Canadian Cancer Society, these companies enhance their corporate image, differentiate themselves from the competition and foster customer and employee loyalty. By investing with the Canadian Cancer Society, companies are giving back, getting ahead and helping us do more.

The following corporations, employee groups, foundations and associations comprise the Society's top contributors. With their ongoing support, we will continue to fund promising research, provide information services and support programs and improve the quality of life for those living with cancer. Although we appreciate all contributions, only those organizations that contributed $10,000 or more are listed.
